Johanna Aho
Novo Nordisk A/S
Brennum Park
DK-3400 Hillerød
Denmark

Contact persons

Mikael Rigdahl, President

Chalmers University of Technology, SE-412 96 Göteborg, Sweden.
Phone: +46 31 772 1309, e-mail: mikael.rigdahl@chalmers.se

Johanna Aho, Secretary

Novo Nordisk A/S, Brennum Park, DK-3400 Hillerød, Denmark
Phone: +45 30755289, e-mail: jhaz@novonordisk.com

Stefanía Baldursdóttir, Treasurer

University of Copenhagen, Pharmaceutics and Analytical Chemistry, Universitetsparken 2, DK-2100 Copenhagen, Denmark. Phone: +45 35336105, e-mail: sba@farma.ku.dk

Mats Stading, ICR Representative

SIK, Structure and Material Design, Box 5401, SE-402 29 Göteborg, Sweden. Phone: +46 10 516 6637, e-mail: mats.stading@sik.se

Heidi Nielsen, Danish Representative

CPKelco, Vedbanen 16, 4623 Lille Skensved, Denmark.
Phone: +45 56 165616, e-mail: heidi.nielsen@cpkelco.com

Sami Hietala, Finnish Representative

University of Helsinki, Polymer Chemistry, FI-00014 Finland.
Phone: +358 9 191 50333, e-mail: sami.hietala@helsinki.fi

Jón Guðni Guðmundsson, Icelandic representative

Innovation Center Iceland, Keldnaholt, IS-112 Reykjavik, Island.
Phone: +354 522 9333

Ingvild Haug, Norwegian representative

Norwegian Biopolymer Laboratory, Institute of Biotechnology - NTNU, NO-7034 Trondheim, Norway. Phone: +47 99 51 46 08, e-mail: ingvild.haug@nt.ntnu.no

Marcus Schmidt, Swedish representative

Volvo Car Corporation, Department 93732, SE-405 31 Göteborg, Sweden. Phone: +46 31 3253 492, e-mail: mschmi55@volvocars.com

Your flow between industry and academia

Welcome to join The Nordic Rheology Society – where academia and industry meets

The Nordic Rheology Society engages people interested in rheology in the Nordic countries. Rheology is defined as the science of the deformation and flow of matter which means that rheology in some form enters almost every study of material properties. In the Nordic countries, rheological measurements have become standard techniques in both industrial and academic research. The Nordic Rheology Society was formed as a meeting ground for engineers, physicists, chemists and biologists engaged in rheology in industry and academia.

NRS offers a broad spectrum of services for the members which provide good opportunities for making personal contacts, exchange experiences, get access to special equipment, discuss problems and get advice. The discussion group on LinkedIn provides fast access on-line to colleagues with expertise in all areas of rheology.

The annual Nordic Rheology Conference features a special topic with invited speakers of international standing as well as sessions on general rheology. It is a mix of the latest academic research and cases from industrial applications. Contributing papers are published in the Annual Transactions of the NRS which is available to the members on-line as well as in print. The conference also offers an exhibition of rheological equipment, poster display and rheology courses which makes it the leading meeting place for industry and academia in the Nordic countries.

Membership gives access to the member pages on the NRS web site, www.nordicrheologysociety.org. These pages contain the papers from the NRS Annual Transaction, member directory, rheology links, information about local rheology events, Newsletters and more. Membership also entitles you to a substantially discounted subscription of Applied Rheology with extensive articles on the latest developments in rheology.

Vision:
To promote and propagate rheology at all levels throughout the Nordic Countries.

Mission:
To promote and propagate rheology at all levels by building a broad forum where academia and industry, in their applicational and theoretical guises can meet, share and discuss ideas to their mutual benefit.

Please sign me up for membership in the Nordic Rheology Society!
